CAGE 1M6V7

COMPANY OVERVIEW

i2P is a Kentucky small business formed in November 2025. We supply commercial equipment and commodities to federal and state agencies, sourcing through manufacturers and their authorized distributors, and we conduct applied acoustic-sensing research under our primary NAICS. The company is registered, active in SAM.gov, and payment-ready.

CORE COMPETENCIES

Commercial equipment & commodity supply Brand-name-or-equal sourcing of laboratory and scientific instruments, electrical materials, and facility and office equipment — quoted, delivered, and documented to the requiring activity.

Section 508 & WCAG 2.1 AA accessibility auditing Digital accessibility assessment, written findings, and remediation guidance for agencies carrying Section 508 obligations.

Applied acoustic sensing research AEGIS — an acoustic intelligence platform extracting structure from microphone audio for accessibility, industrial condition monitoring, and analytics applications.

Procurement & compliance support Quote assembly, brand-name-or-equal justification, country-of-origin and Buy American documentation, delivery coordination.

Instructional & training products Professional certification preparation and instructional programming, including regulated-examination coursework.

DIFFERENTIATORS

Registered and payment-ready today Active SAM.gov registration, CAGE code, and Kentucky VSS vendor number already in place — no onboarding delay between award and delivery.

Accessibility competence in-house Section 508 is a statutory obligation for federal buyers and an afterthought for most suppliers. Here it is a working discipline, not a subcontract.

Authorized-channel sourcing Reseller status is confirmed in writing with the manufacturer or its distributor before an offer is submitted.

Direct principal engagement The founder handles every solicitation personally — no account layer between the contracting officer and the decision-maker.

CORPORATE DATA

611699	All Other Miscellaneous Schools and Instruction
711211	Sports Teams and Clubs

CONTRACT STATUS

i2P is a pre-award federal vendor: registered, compliant, and actively bidding, with no federal prime contract awarded to date. We state that plainly rather than imply a past-performance record we have not yet built. References for supplier relationships and commercial and state-level work are available on request. No GSA Schedule or GWAC is currently held.
